

## ANC Road (DLO930569)

Road Maintenance Supervisor: [\(780\) 204-ANCR \(2627\)](tel:7802042627)

Website: [www.ANCroad.com](http://www.ANCroad.com)

Email: [ANCroad@albertanewsprint.com](mailto:ANCroad@albertanewsprint.com)

June-18-19

In anticipation of the inclement weather in the forecast, we ask that all road users please try to refrain/reduce the number of heavy loads on the ANC Haul road until the wet weather clears.

Your cooperation is greatly appreciated and will assist ANC from the need to implement a road ban.

We would also like to take this opportunity to thank road users for complying with the new rules of the road, specifically doing the speed limits and slowing down when passing graders and other working equipment. Your efforts have not gone unnoticed and we have received lots of positive feedback in regards to the safety and condition of the road, so thank you!

Also, please remember to submit a road use report via [www.ancroad.com](http://www.ancroad.com) for all rig & service rig moves, frac related moves, convoys of 4 or more and all other large/heavy moves. Understanding where the traffic is going assists us on knowing where road maintenance is needed.

The screenshot shows the website interface for ANC Timber Ltd. The navigation menu includes HOME, ROADUSE, FMA, Salvage Notification, Links, Rules of The Road, Contact, Help, and Log in. The ROADUSE dropdown menu is open, showing options: Report Roaduse, Request Roaduse Agreement, Pay a Speeding Ticket, and Add my email to the road notification list. The 'Report Roaduse' option is highlighted. A 'Road Use Notification' button is visible on the right side of the page. The main content area features a background image of a forest road with the text 'Our forests, our air' and a series of dots. At the bottom, there is a 'Latest Road Info' section with a date and time, and a link to a PDF document.

1. Click Road use
2. Click Report Road use
3. Click Road Use Notification

As the Master Road Use Agreement holder, it is your responsibility to communicate this requirement to all field personnel and contractors.
