

Tree Utilization

ANC FMA – Coniferous timber

Merchantable tree: minimum of 6" (15cm) at the stump (outside bark) with a usable length of 12' (3.66m) to a 4" (10cm) top (inside bark)

Merchantable Piece: a piece 2.44m (8" plus 2" trim allowance) to a 10cm top where rot content does render it unusable

ANC FMA – Deciduous timber

Same as coniferous timber except the top diameter can be at the point of heaving branching

W6 Quota – Coniferous timber

Merchantable tree: minimum of 6" (15cm) at the stump (outside bark) with a usable length of 12' (3.66m) to a 4" (10cm) top (inside bark)

Merchantable Piece: a piece 2.44m (8" plus 2" trim allowance) to a 10cm top where rot content does render it unusable
